

X11 Cab

Comfort for your work support

Vehicle cabs from the CLAAS product range offer you pleasant comfort and ergonomics. They can be individually configured according to your wishes with over 100 choices. Whether as a 12-volt or a 24-volt variant, the comfort cab has all-round glazing as standard for a clear view in all directions. An automatic climate control system reliably maintains the temperature you have selected and at temperatures of up to 50°C

outside temperature. Sunblinds and a drinks cooler complete the the program of the comfort cabin.
